# Author Index Volume 193

Bhagat, S.P. and Champlin, C.A.
Evaluation of distortion products produced by the human auditory system (193) 51
Bleich, N., see Pratt, H. (193) 83

Cacace, A.T., see McFarland, D.J. (193) 111
Champlin, C.A., see Bhagat, S.P. (193) 51
Charles, C., see Job, A. (193) 31
Cian, C., see Job, A. (193) 31
Cusack, R. and Roberts, B.
Effects of differences in the pattern of amplitude envelopes across harmonics on auditory stream segregation (193) 95

De Zeeuw, C.I., see van Looij, M.A.J. (193) 75
Deingruber, K., see Gehr, D.D. (193) 9
Dickey, D.T., Muldoon, L.L., Kraemer, D.F. and Neuwelt, E.A.
Protection against cisplatin-induced ototoxicity by *N*-acetylcysteine in a rat model (193) 25
Dotsu, M., see Kumagami, H. (193) 20

Eggermont, J.J., see Tomita, M. (193) 39
Esquivié, D., see Job, A. (193) 31

Farris, H.E., Mason, A.C. and Hoy, R.R.
Identified auditory neurons in the cricket *Gryllus rubens*: temporal processing in calling song sensitive units (193) 121
Freeman, S., see Sohmer, H. (193) 105

Gehr, D.D., Janssen, T., Michaelis, C.E., Deingruber, K. and Lamm, K. Middle ear and cochlear disorders result in different DPOAE growth behaviour: implications for the differentiation of sound conductive and cochlear hearing loss (193) 9

Hoy, R.R., see Farris, H.E. (193) 121

Janssen, T., see Gehr, D.D. (193) 9
Job, A., Cian, C., Esquivié, D., Leifflen, D., Trousselard, M., Charles, C. and Nottet, J.-B.
Moderate variations of mood/emotional states related to alterations in cochlear otoacoustic emissions and tinnitus onset in young normal hearing subjects exposed to gun impulse noise (193) 31

Katsura, M., see Kumagami, H. (193) 20
Kraemer, D.F., see Dickey, D.T. (193) 25
Kumagami, H., Tanaka, F., Dotsu, M., Yoshida, H., Ohsato, Y., Katsura, M., Oku, R., Shigeno, K. and Takahashi, H.
Measurement of the endolymphatic sac potential in human (193) 20

Lamm, K., see Gehr, D.D. (193) 9
Leifflen, D., see Job, A. (193) 31
Li, X., see Liu, Y. (193) 68
Liem, S.-S., see van Looij, M.A.J. (193) 75
Liu, Y. and Li, X.
Effects of salicylate on voltage-gated sodium channels in rat inferior colliculus neurons (193) 68
Liu, Z.-H., see Zhong, S.-X. (193) 1

Mason, A.C., see Farris, H.E. (193) 121
McFarland, D.J. and Cacace, A.T.
Separating stimulus-locked and unlocked components of the auditory event-related potential (193) 111
Michaelis, C.E., see Gehr, D.D. (193) 9
Mittelman, N., see Pratt, H. (193) 83
Muldoon, L.L., see Dickey, D.T. (193) 25

Neuwelt, E.A., see Dickey, D.T. (193) 25
Noreña, A.J., see Tomita, M. (193) 39
Nottet, J.-B., see Job, A. (193) 31

Ohsato, Y., see Kumagami, H. (193) 20
Oku, R., see Kumagami, H. (193) 20

Polyakov, A., see Pratt, H. (193) 83
Pratt, H., Polyakov, A., Bleich, N. and Mittelman, N.
The combined effects of forward masking by noise and high click rate on monaural and binaural human auditory nerve and brainstem potentials (193) 83

Roberts, B., see Cusack, R. (193) 95

Shigeno, K., see Kumagami, H. (193) 20
Sohmer, H. and Freeman, S.
Further evidence for a fluid pathway during bone conduction auditory stimulation (193) 105

Takahashi, H., see Kumagami, H. (193) 20
Tanaka, F., see Kumagami, H. (193) 20
Tomita, M., Noreña, A.J. and Eggermont, J.J.
Effects of an acute acoustic trauma on the representation of a voice onset time continuum in cat primary auditory cortex (193) 39
Trousselard, M., see Job, A. (193) 31

van der Burg, H., see van Looij, M.A.J. (193) 75
van der Wees, J., see van Looij, M.A.J. (193) 75
van Looij, M.A.J., Liem, S.-S., van der Burg, H., van der Wees, J., De Zeeuw, C.I. and van Zanten, B.G.A.
Impact of conventional anesthesia on auditory brainstem responses in mice (193) 75
van Zanten, B.G.A., see van Looij, M.A.J. (193) 75

Yoshida, H., see Kumagami, H. (193) 20

Zhong, S.-X. and Liu, Z.-H.
Immunohistochemical localization of the epithelial sodium channel in the rat inner ear (193) 1

doi:10.1016/S0378-5955(04)00176-5

# Subject Index Volume 193

**ABR**
Anesthesia, Awake, Mouse (van Looij, M.A.J. (193) 75)

**Acoustic trauma**
Tinnitus, DPOAEs, Mood, NIHL, Anxiety (Job, A. (193) 31)

**Afferents**
Sinusoidal amplitude modulation, Temporal modulation transfer function, Omega cells, INT-1, AN2, Ultrasound, *Gryllus bimaculatus*, *Teleogryllus oceanicus*, Calling song (Farris, H.E. (193) 121)

**AN2**
Sinusoidal amplitude modulation, Temporal modulation transfer function, Omega cells, Afferents, INT-1, Ultrasound, *Gryllus bimaculatus*, *Teleogryllus oceanicus*, Calling song (Farris, H.E. (193) 121)

**Anesthesia**
ABR, Awake, Mouse (van Looij, M.A.J. (193) 75)

**Animal model**
Cisplatin, *N*-Acetylcysteine, Ototoxicity, Chemoprotection, Blood-brain barrier (Thomas Dickey, D. (193) 25)

**Anxiety**
Tinnitus, DPOAEs, Mood, Acoustic trauma, NIHL (Job, A. (193) 31)

**Auditory brainstem evoked potentials**
Binaural interaction, Forward masking, Stimulus rate, Equivalent dipole (Pratt, H. (193) 83)

**Auditory evoked potentials**
Distortion products, Otoacoustic emissions, Cubic difference tone, Quadratic difference tone (Bhagat, S.P. (193) 51)

**Auditory stream segregation**
Timbre, Complex sounds (Cusack, R. (193) 95)

**Awake**
ABR, Anesthesia, Mouse (van Looij, M.A.J. (193) 75)

**Binaural interaction**
Auditory brainstem evoked potentials, Forward masking, Stimulus rate, Equivalent dipole (Pratt, H. (193) 83)

**Blood-brain barrier**
Cisplatin, *N*-Acetylcysteine, Ototoxicity, Chemoprotection, Animal model (Thomas Dickey, D. (193) 25)

**Bone conduction**
Pressure, Fluid pathway (Sohmer, H. (193) 105)

**Calling song**
Sinusoidal amplitude modulation, Temporal modulation transfer function, Omega cells, Afferents, INT-1, AN2, Ultrasound, *Gryllus bimaculatus*, *Teleogryllus oceanicus* (Farris, H.E. (193) 121)

**Chemoprotection**
Cisplatin, *N*-Acetylcysteine, Ototoxicity, Blood-brain barrier, Animal model (Thomas Dickey, D. (193) 25)

**Cisplatin**
*N*-Acetylcysteine, Ototoxicity, Chemoprotection, Blood-brain barrier, Animal model (Thomas Dickey, D. (193) 25)

**Cochlea**
Endolymph, Vestibule, Immunohistochemistry, Epithelial sodium channel (Zhong, S.-X. (193) 1)

**Cochlear dysfunction**
DPOAE input/output-function, Guinea pig, Transitory middle ear dysfunction, Noise induced hearing loss, Tinnitus model (Gehr, D.D. (193) 9)

**Complex sounds**
Auditory stream segregation, Timbre (Cusack, R. (193) 95)

**Cubic difference tone**
Distortion products, Auditory evoked potentials, Otoacoustic emissions, Quadratic difference tone (Bhagat, S.P. (193) 51)

**Distortion products**
Auditory evoked potentials, Otoacoustic emissions, Cubic difference tone, Quadratic difference tone (Bhagat, S.P. (193) 51)

**DPOAE input/output-function**
Guinea pig, Cochlear dysfunction, Transitory middle ear dysfunction, Noise induced hearing loss, Tinnitus model (Gehr, D.D. (193) 9)

**DPOAEs**
Tinnitus, Mood, Acoustic trauma, NIHL, Anxiety (Job, A. (193) 31)

**Endolymph**
Cochlea, Vestibule, Immunohistochemistry, Epithelial sodium channel (Zhong, S.-X. (193) 1)

**Endolymphatic sac**
Endolymphatic sac potential, Human, Ménière's disease, Vestibular schwannoma (Kumagami, H. (193) 20)

**Endolymphatic sac potential**
Human, Ménière's disease, Endolymphatic sac, Vestibular schwannoma (Kumagami, H. (193) 20)

doi:10.1016/S0378-5955(04)00177-7

**Epithelial sodium channel**
Endolymph, Cochlea, Vestibule, Immunohistochemistry (Zhong, S.-X. (193) 1)

**Equivalent dipole**
Auditory brainstem evoked potentials, Binaural interaction, Forward masking, Stimulus rate (Pratt, H. (193) 83)

**Event-related desynchronization**
Event-related potentials, Event-related synchronization, Phase, Spectral dynamics (McFarland, D.J. (193) 111)

**Event-related potentials**
Event-related synchronization, Event-related desynchronization, Phase, Spectral dynamics (McFarland, D.J. (193) 111)

**Event-related synchronization**
Event-related potentials, Event-related desynchronization, Phase, Spectral dynamics (McFarland, D.J. (193) 111)

**Fluid pathway**
Bone conduction, Pressure (Sohmer, H. (193) 105)

**Forward masking**
Auditory brainstem evoked potentials, Binaural interaction, Stimulus rate, Equivalent dipole (Pratt, H. (193) 83)

***Gryllus bimaculatus***
Sinusoidal amplitude modulation, Temporal modulation transfer function, Omega cells, Afferents, INT-1, AN2, Ultrasound, *Teleogryllus oceanicus*, Calling song (Farris, H.E. (193) 121)

**Guinea pig**
DPOAE input/output-function, Cochlear dysfunction, Transitory middle ear dysfunction, Noise induced hearing loss, Tinnitus model (Gehr, D.D. (193) 9)

**Hearing loss**
Noise trauma, Voice onset time, Speech perception, Temporal resolution (Tomita, M. (193) 39)

**Human**
Endolymphatic sac potential, Ménière's disease, Endolymphatic sac, Vestibular schwannoma (Kumagami, H. (193) 20)

**Immunohistochemistry**
Endolymph, Cochlea, Vestibule, Epithelial sodium channel (Zhong, S.-X. (193) 1)

**Inferior colliculus**
Salicylate, Sodium currents, Tinnitus, Patch clamp (Liu, Y. (193) 68)

**INT-1**
Sinusoidal amplitude modulation, Temporal modulation transfer function, Omega cells, Afferents, AN2, Ultrasound, *Gryllus bimaculatus*, *Teleogryllus oceanicus*, Calling song (Farris, H.E. (193) 121)

**Ménière's disease**
Endolymphatic sac potential, Human, Endolymphatic sac, Vestibular schwannoma (Kumagami, H. (193) 20)

**Mood**
Tinnitus, DPOAEs, Acoustic trauma, NIHL, Anxiety (Job, A. (193) 31)

**Mouse**
ABR, Anesthesia, Awake (van Looij, M.A.J. (193) 75)

***N*-Acetylcysteine**
Cisplatin, Ototoxicity, Chemoprotection, Blood-brain barrier, Animal model (Thomas Dickey, D. (193) 25)

**NIHL**
Tinnitus, DPOAEs, Mood, Acoustic trauma, Anxiety (Job, A. (193) 31)

**Noise induced hearing loss**
DPOAE input/output-function, Guinea pig, Cochlear dysfunction, Transitory middle ear dysfunction, Tinnitus model (Gehr, D.D. (193) 9)

**Noise trauma**
Hearing loss, Voice onset time, Speech perception, Temporal resolution (Tomita, M. (193) 39)

**Omega cells**
Sinusoidal amplitude modulation, Temporal modulation transfer function, Afferents, INT-1, AN2, Ultrasound, *Gryllus bimaculatus*, *Teleogryllus oceanicus*, Calling song (Farris, H.E. (193) 121)

**Otoacoustic emissions**
Distortion products, Auditory evoked potentials, Cubic difference tone, Quadratic difference tone (Bhagat, S.P. (193) 51)

**Ototoxicity**
Cisplatin, *N*-Acetylcysteine, Chemoprotection, Blood-brain barrier, Animal model (Thomas Dickey, D. (193) 25)

**Patch clamp**
Salicylate, Sodium currents, Inferior colliculus, Tinnitus (Liu, Y. (193) 68)

**Phase**
Event-related potentials, Event-related synchronization, Event-related desynchronization, Spectral dynamics (McFarland, D.J. (193) 111)

**Pressure**
Bone conduction, Fluid pathway (Sohmer, H. (193) 105)

**Quadratic difference tone**
Distortion products, Auditory evoked potentials, Otoacoustic emissions, Cubic difference tone (Bhagat, S.P. (193) 51)

**Salicylate**
Sodium currents, Inferior colliculus, Tinnitus, Patch clamp (Liu, Y. (193) 68)

**Sinusoidal amplitude modulation**
Temporal modulation transfer function, Omega cells, Afferents, INT-1, AN2, Ultrasound, *Gryllus bimaculatus*, *Teleogryllus oceanicus*, Calling song (Farris, H.E. (193) 121)

**Sodium currents**
Salicylate, Inferior colliculus, Tinnitus, Patch clamp (Liu, Y. (193) 68)

**Spectral dynamics**
Event-related potentials, Event-related synchronization, Event-related desynchronization, Phase (McFarland, D.J. (193) 111)

**Speech perception**
Noise trauma, Hearing loss, Voice onset time, Temporal resolution (Tomita, M. (193) 39)

**Stimulus rate**
Auditory brainstem evoked potentials, Binaural interaction, Forward masking, Equivalent dipole (Pratt, H. (193) 83)

***Teleogryllus oceanicus***
Sinusoidal amplitude modulation, Temporal modulation transfer function, Omega cells, Afferents, INT-1, AN2, Ultrasound, *Gryllus bimaculatus*, Calling song (Farris, H.E. (193) 121)

**Temporal modulation transfer function**
Sinusoidal amplitude modulation, Omega cells, Afferents, INT-1, AN2, Ultrasound, *Gryllus bimaculatus*, *Teleogryllus oceanicus*, Calling song (Farris, H.E. (193) 121)

**Temporal resolution**
Noise trauma, Hearing loss, Voice onset time, Speech perception (Tomita, M. (193) 39)

**Timbre**
Auditory stream segregation, Complex sounds (Cusack, R. (193) 95)

**Tinnitus model**
DPOAE input/output-function, Guinea pig, Cochlear dysfunction, Transitory middle ear dysfunction, Noise induced hearing loss (Gehr, D.D. (193) 9)

**Tinnitus**
DPOAEs, Mood, Acoustic trauma, NIHL, Anxiety (Job, A. (193) 31)

Salicylate, Sodium currents, Inferior colliculus, Patch clamp (Liu, Y. (193) 68)

**Transitory middle ear dysfunction**
DPOAE input/output-function, Guinea pig, Cochlear dysfunction, Noise induced hearing loss, Tinnitus model (Gehr, D.D. (193) 9)

**Ultrasound**
Sinusoidal amplitude modulation, Temporal modulation transfer function, Omega cells, Afferents, INT-1, AN2, *Gryllus bimaculatus*, *Teleogryllus oceanicus*, Calling song (Farris, H.E. (193) 121)

**Vestibular schwannoma**
Endolymphatic sac potential, Human, Ménière's disease, Endolymphatic sac (Kumagami, H. (193) 20)

**Vestibule**
Endolymph, Cochlea, Immunohistochemistry, Epithelial sodium channel (Zhong, S.-X. (193) 1)

**Voice onset time**
Noise trauma, Hearing loss, Speech perception, Temporal resolution (Tomita, M. (193) 39)
